

**AMENDMENT TO THE SPECIFICATION**

Please replace the paragraph on page 10, lines 25-31 with the following replacement paragraph.

---

B | The processor module or remote gaming unit may also contain a theft deterrent device utilizing an RFID sold by WhereNet or other similar technology for tracking the location of the processor module on the gaming floor. Each module's unique ID address, such as an IP address, and floor location can be graphically displayed on the master station to track the module movement.
